and further in view of U.S. Patent No. 6,108,703 to Leighton et al. ("Leighton").

Applicants respectfully traverse these rejections for the reasons set forth

below.

I. The Invention

Briefly stated, the present invention provides systems, methods and computer

program products for associating dynamically generated Web page content with a user who

requests a Web page from a Web server. Upon receiving a user request for a Web page via a

Web client in communication with the Web server, a Web server records the user request
